

Pediatric Interventional Radiologist

The Department of Radiology at Children's Mercy Kansas City and the University of Missouri – Kansas City School of Medicine (UMKC-SOM) seek a clinical / academic Pediatric Interventional Radiologist to join a highly specialized academic Pediatric Radiology group. This position includes a collegial, private practice style work environment with autonomous management of pediatric imaging and procedures.

Our rapidly growing Radiology Department at Children's Mercy is comprised of 27 radiologists with subspecialty expertise in all areas of pediatric imaging, including 4 radiologists who currently practice interventional radiology. **Compensation, paid time off and benefits are highly competitive to the market. Both full and part-time candidates will be considered.** This is an on-site opportunity.

The candidate should be CAQ-certified or CAQ-eligible in Pediatric Radiology as well as Interventional Radiology or have extensive experience with image guided procedures in pediatrics. The position is approximately 70% interventional radiology and 30% diagnostic radiology which entails practice within all aspects of pediatric imaging. Teaching duties include radiology residents from multiple residency programs. Research opportunities also are available and encouraged but not required. Academic appointments will be through the University of Missouri – Kansas City School of Medicine. Our program has a CAQ accredited pediatric radiology fellowship program and interventional radiology fellows from the University of Kansas rotate through our department.

Please apply with CV and Cover Letter using link below, or send to physicianjobs@cmh.edu

The successful applicant must share our unwavering commitment to excellence, integrity, collegiality, antiracism, and respect for inclusion of individuals with diverse backgrounds.

Children's Mercy Kansas City is an independent, non-profit, 390-bed pediatric health system, providing over half a million patient encounters each year for children from across the country. Children's Mercy is ranked by U.S. News & World Report in nine specialties. We have received Magnet® recognition five times for excellence in nursing services. In affiliation with the University of Missouri-Kansas City and the University of Kansas, our faculty of nearly 800 pediatric specialists and researchers are actively involved in clinical care, pediatric research and educating the next generation of pediatricians and pediatric subspecialists.

The Children's Mercy Research Institute (CMRI) integrates research and clinical care with nationally recognized expertise in genomic medicine, precision therapeutics, population health and health care innovation. In 2021, the CMRI moved into a nine story, 375,000 square foot space emphasizing a translational approach to research in which clinicians and researchers work together to accelerate the pace of discovery that enhances care.
